The Mesabi Trail<sup>SM</sup> crossing the great Land of Mesabi, offers an abundance of nature and outdoor experiences. You may choose to walk, hike, bike, skate, ski, snowshoe and, in some areas, snowmobile, along the Trail as it traverses over 130 miles, with 97 complete in 2005, and through 25 communities. These communities offer historical buildings, mining artifacts, early industry and ethnic history, plus other treasures well worth the discovery. Forests teeming with wildlife can be found between rolling hills. Streams and creeks provide habitat for birds and animals alike. Grand heaps of earth provide man-made mountains that are becoming regrowth forests lining the edges of some of the world's largest man-made mines. These former mines are fast becoming a linked chain of watery passageways. Come enjoy a quality quest experience in the Land of Mesabi, via the Mesabi Trail<sup>SM</sup>
